

Laerdal Medical **Distributor** Code of Conduct

Laerdal Medical has implemented a Code of Conduct which formulates the minimum requirements of ethical behavior for Laerdal corporate management, Laerdal employees, as well as Distributors, consultants and contract workers who provide products or services to our organizations on a global basis.

We expect that our Distributors will share and accept the letter and spirit of our commitment to high ethical standards, including compliance with all applicable laws and regulations.

We understand and accept that suppliers are independent entities; however, business practices of third parties may impact or reflect upon Laerdal. Therefore, we have established the Laerdal Medical Distributor Code of Conduct which sets forth the business conduct standards we expect all Distributors and their employees, to adhere to, while engaged in business with us or on our behalf.

Where they exist, the Distributors own written Code of Conduct may replace Laerdal's Distributor Code of Conduct, if they are consistent with these standards, and are provided to the responsible Laerdal representative.
